2027 Excursion Policy

As a senior school focused on vocational training, excursions are vital for our students to build industry currency and access real-world learning opportunities. They are integral to the college's participation in our community, time intensive for staff to organise and attend, and reliant on time, money and consideration of external providers.

2027 Breach of Excursion Policy

As such, the college maintains an excursion policy that ensures all students attend, engage and behave appropriately at events. The following behaviours are considered a breach of the excursion policy:

- Non-Attendance – a student fails to attend a compulsory event, or a non-compulsory event that they have opted into
- Non-payment – the cost of an event has not been paid prior to the event payment deadline
- Behaviour – a student's behaviour or conduct is detrimental to the college
- Presentation – a student attends an event in incorrect uniform or presents themselves in a way that is detrimental to the college
