

CATTLE FEEDLOT/CROPPING

We are currently in the process of looking for an employee to commit for a 12 month minimum employment next year on our cropping and cattle feedlot enterprise based in Hyden WA (approx 4hrs east of Perth).

As an ex-collegian myself, I would like to look into the possibility of finding a recent graduate, for them to learn and grow within the industry.

We are a family run business and run a small, strong, independent team and looking for someone who could fit in with us.

We are looking for someone to work predominately on the cattle/farming aspect, however depending on their knowledge and experience could be trained to handle heavy machinery during harvest/seeding/hay.

As we do run a small team, the ability to work alone and the confidence to speak up is critical. Most of what we do here can be taught but the right attitude is vital. Someone with good cattle knowledge/experience would be ideal.

We do have facilities on site for accommodation to be arranged, and there are also rental units available in town (15mins away).

Hyden is a small friendly, welcoming town with plenty of sports and community activities and local sites to check out.

If you feel you have a year 12 graduate who could be suitable, I would love to have a CV sent through for anyone you feel could be the right fit.

Please feel free to give me a call for further information should you require.

Thank you for your time.

Kind Regards,

Claire Green
